GREAT LAKES FLEET

ITB PRESQUE ISLE

Name:

- ITB Presque Isle
- The Presque Isle is a self-unloading bulk carrier.

Did You Know?

- The Presque Isle was the second 1,000-foot vessel to be launched on the Great Lakes.
- The Presque Isle has two separate cargo holds, allowing it to transport different types of bulk cargo simultaneously. This is an uncommon feature, especially on the Great Lakes.

- The ship is equipped with a self-unloading system, which allows it to discharge its cargo without relying on shoreside equipment.
- The barge was built in two sections: bow by DeFoe Shipbuilding in Bay City, Michigan, and cargo section by Erie Marine in Erie, Pennsylvania. The tug was built by Halter Marine of New Orleans, LA
- It has been lengthened twice, in 1981 and 2006.
